

## Advance Notice Of Pesticide Treatment

**This notice is to be provided whenever a pesticide, other than a bait or gel formulation, is to be applied at this facility. The information will be posted using the methods identified in the Annual Notification.**

Attention: This facility utilizes an Integrated Pest Management Program for pest control, employing non-chemical methods that include sanitation and exclusion to control pests. However, from time to time a pesticide application may be necessary to control certain pests.

Please be advised that a fertilizer and pesticide is expected to be applied to promote grass growth and control weeds.

The approximate location of this pest control treatment is at the high school practice field, and all fence lines and ballfields in the Kingsley Athletic Complex. Ballfields include Rhodes football, softball, baseball, and the soccer field.

The anticipated date of treatment will be Wednesday, May 1 2024.

If you have questions pertaining to this treatment, please contact:

Name: James Moen (Facilities Director)

Phone: (231) 263 5262 ext. 3041
