

Fourth Grade News

November 3, 2025

ELA

This week, students will be drafting an informative paragraph about the life of a Serf during the Middle Ages. They will also be learning how to identify the correlation between verbs and adverbs. We will conclude the week, using graphic organizers to produce clear and coherent writing, that compares the lives of medieval knights, craftsmen, monks and nuns.

Important Info:

Nov. 4: No school students

Nov.11-14 : Parent Teacher conferences

Nov. 26,27,28: No school - Thanksgiving Break

Dec. 22-Jan.2: Winter Break

Math

Multiplication, Multiplication, Multiplication! Yes, you read correctly...it's more multiplication this week :)

Please make sure your child knows their multiplication facts. Math will be extremely difficult for them from this point on if they do not know their facts. We are starting 2 digit by 2 digit multiplication.

Monday: Lesson 2.12

Tuesday: No School

Wednesday: Lesson 2.14

Thursday: Lesson 2.14

Friday: Lesson 2.15

SCIENCE

This week we will wrap up our science energy unit by completing our final two lessons on renewable and nonrenewable sources of energy. Students will compare and contrast these sources of energy and identify advantages and disadvantages of renewable energy. We will then have a day of review and end the week with our final **assessment on Friday, November 7.** Please continue to encourage your child to spend meaningful time reviewing their study guide prior to the assessment.
