INDEPENDENT AUDITOR'S REPORT

To the Board of Education  
Kingsley Area Schools  
Kingsley, Michigan

**Report on the Audit of the Financial Statements**

***Opinions***

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Kingsley Area Schools, Kingsley, Michigan as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Kingsley Area Schools, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Kingsley Area Schools and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Kingsley Area Schools' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our

opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Kingsley Area Schools' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Kingsley Area Schools' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as identified in the table of contents, on pages 4-12 and 53-58 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Kingsley Area Schools' basic financial statements. The accompanying combining fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 23, 2023, on our consideration of Kingsley Area Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Kingsley Area Schools' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Kingsley Area Schools' internal control over financial reporting and compliance.

MANAGEMENT’S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2023

This section of Kingsley Area Schools’ (“the District”) annual report presents our discussion and analysis of the District’s financial performance during the year ended June 30, 2023. Please read it in conjunction with the District’s financial statements, which immediately follow this section.

This discussion and analysis is intended to serve as an introduction to the District’s basic financial statements. The basic financial statements consist of the following three components: the government-wide financial statements, fund financial statements, and the notes to basic financial statements. This report also contains other supplementary information in addition to the basic financial statements.

**A. Government-Wide Financial Statements**

The government-wide statements provide short-term and long-term financial information about the District’s overall financial status. These statements are required by generally accepted accounting principles (GAAP) as described in the Government Accounting Standards Board (GASB) Statement No. 34. The district-wide financial statements are compiled using full accrual basis of accounting and more closely represent financial statements presented by business and industry. The Statement of Net Position includes all of the District’s assets and liabilities. All of the year’s revenue and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two district-wide statements report the District’s net position and how they have changed. Net position, the difference between the District’s assets and liabilities, is one way to measure the District’s financial health or position.

Over time, increases and decreases in the District’s net position are indicators of whether its financial position is improving or deteriorating, respectively.

To assess the overall health of the District requires consideration of additional non-financial factors, such as changes in the District’s property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District’s activities are all shown in one category titled “Governmental Activities”. These activities, including regular and special education, transportation, administration, food services, and athletic activities, are primarily financed with state and federal aids and property taxes.

**B. Fund Financial Statements**

The fund financial statements provide more detailed information about the District’s funds, focusing on its most significant or “major” funds, rather than the District as a whole. Funds that do not meet the threshold to be classified as major funds are called “non-major” funds. Detailed financial information for non-major funds can be found in the combining and individual fund statements section.

Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

KINGSLEY AREA SCHOOLS  
KINGSLEY, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2023

Some funds are required by state law and by bond covenants. The District may establish other funds to control and manage money for particular purposes.

The District maintains the following kinds of funds:

**Governmental Funds** – The District's basic services are included in governmental funds, which generally focus on 1) how cash and other financial assets that can be readily converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or less financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information (reconciliation schedules) immediately following the governmental funds statements that explain the relationship (or differences) between these two types of financial statement presentations.

**Fiduciary Funds** – The District is a trustee, or fiduciary, for assets that belong to other organizations. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. We exclude these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

The District maintains one type of fiduciary funds. The Private Purpose Trust Fund is used to account for resources legally held in trust to provide scholarships to post-secondary education students.

**Proprietary Funds** – The District operates a proprietary fund that is composed of an internal service fund. This fund accounts for services provided to the District's other funds. The District's self-funded medical plan is accounted for in this fund.

### **C. Notes to Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the Government-wide and fund financial statements. The notes to the financial statements can be found on pages 25-52 of this report.

### **D. Other Information**

In addition to the basic financial statements, this report further presents Required Supplementary Information (RSI) that explains and supports the information presented in the financial statements.

**F. Analysis of Financial Position**

During the fiscal year ended June 30, 2023, the District's net position decreased by \$832,835. A few of the more significant factors affecting net position during the year are discussed below:

**1. Depreciation Expense**

GASB 34 requires school districts to maintain a record of annual depreciation expense and the accumulation of depreciation expense over time. The net increase in accumulated depreciation expense is a reduction in net position.

Depreciation expense is recorded on a straight-line basis over the estimated useful lives of the assets. In accordance with GAAP, depreciation expense is calculated based on the original cost of the asset less an estimated salvage value, where applicable. For the fiscal year ended June 30, 2023, \$764,921 was recorded for depreciation expense.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2023

**2. Capital Outlay Acquisitions**

For the year ended June 30, 2023, \$828,467 of expenditures were capitalized and recorded as assets of the District. These additions to the District's capital assets will be depreciated over time as explained above.

The net effect of the new capital assets, disposal of capital assets and the current year's depreciation is an increase in capital assets in the amount of \$13,639 for the year ended June 30, 2023.

**3. Pension and Other Postemployment Benefits Expense**

GASB 68 and 75 now requires the District to account for its payments to the Michigan Public School Employees' Retirement System in a manner that has a significant effect on the District's change in net position. Based on various factors, the District may report an increase or decrease in net position depending on whether the District's proportionate share of the net pension liability and net other postemployment benefits liability increases or decreases in any given year.

**G. Results of Operations**

The following schedule summarizes the results of operations, on a district-wide basis, for the fiscal year ended June 30:

	<u>2023</u>	<u>2022</u>
<b>General Revenues</b>		
Property Taxes	\$ 1,266,738	\$ 1,144,551

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2023

	2023	2022
<b>Expenses</b>		
Instruction	13,021,498	10,799,068
Supporting Services	6,350,272	5,718,050
Food Service Activities	1,104,897	1,212,778

	20,680,135	17,951,776
 Total Expenses		
	\$ (832,835)	\$ 947,889

**H. Financial Analysis of the District's Funds**

The financial performance of the District as a whole is also reflected in its governmental funds. The following table shows the change in total fund balances of each of the District's governmental funds:

	2023	2022	Increase (Decrease)
<b>Major Funds</b>			
General Fund	\$ 5,404,507	\$ 5,640,742	\$ (236,235)
 <b>Nonmajor Funds</b>			
Food Service Fund	464,707	496,000	(31,293)
School Activity Fund	289,852	296,114	(6,262)
Public Improvement Fund	116,747	436,869	(320,122)
	\$ 6,275,813	\$ 6,869,725	\$ (593,912)

In 2022-2023, the General Fund decreased its fund balance as a result of increased capital outlay expenditures and wages.

The Food Service Fund decreased its fund balance as a result of purchasing new equipment and other various renovations during the year.

The School Activity Fund decreased its fund balance due to school activity expenditures exceeding fundraising and other sources of revenue.

The Public Improvement Fund decreased its fund balance due to having no revenue or transfers in this year.

MANAGEMENT’S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2023

**I. Analysis of Significant Revenues and Expenses**

Significant revenues and expenditures are discussed in the segments below:

**1. Property Taxes**

The District levies 18 mills of property taxes for operations on non-principal residence exemption properties, less the mandatory reductions required by the Headlee Amendment, Article IX, Section 31. According to Michigan law, the tax levy is based on the taxable valuation of properties. The annual taxable valuation increases are capped at the rate of the prior year’s Consumer’s Price Index increase or 5%, whichever is less. At the time property is sold, its taxable valuation is readjusted to the State Equalized Value, which in theory is half of the property’s market value.

For the 2022-2023 fiscal year, the District levied \$1,266,738 in non-principal residence exemption property taxes.

The following table summarizes the non-principal residence exemption property tax levies for operations for the past five years:

Fiscal Year	Non-Homestead Tax Levy
2022-2023	\$ 1,266,738
2021-2022	1,144,551
2020-2021	1,130,436
2019-2020	1,085,088
2018-2019	1,081,880

**2. State Sources**

The majority of the state sources is comprised of the per student foundation allowance. The State of Michigan funds districts based on a blended student enrollment. For the 2022-2023 fiscal year, the District received \$9,150 per student FTE.

**3. Student Enrollment**

The following schedule summarizes the blended student enrollment for the past five years:

Fiscal Year	Blended Student FTE
2022-2023	1,492
2021-2022	1,531
2020-2021	1,539
2019-2020	1,549
2018-2019	1,553

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2023

**4. Operating Grants**

The District funds a significant portion of its operations with categorical sources. For the year ended June 30, 2023, federal, state, and other grants accounted for \$5,515,101. This represents an increase of \$125,097 from the total grant sources received compared to the 2021-2022 fiscal year.

**J. General Fund Budgetary Highlights**

The Uniform Accounting and Budgeting Act of the State of Michigan requires that the local Board of Education approve the original budget for the upcoming fiscal year prior to its starting on July 1. Any amendments made to the operating budget must be approved by the Board prior to the close of the fiscal year on June 30.

For the 2022-2023 fiscal year, the District amended the General Fund at various time throughout the year, with the Board adopting the changes as summarized below. The following schedule shows a comparison of the original General Fund budget, the final amended General Fund budget, and actual totals from operations:

	<u>ORIGINAL BUDGET</u>	<u>FINAL BUDGET</u>	<u>ACTUAL</u>
<u>REVENUES</u>	\$ 17,444,734	\$ 19,369,740	\$ 19,237,666
<u>EXPENDITURES</u>			
Instruction	\$ 12,068,062	\$ 13,100,819	\$ 12,712,385
Supporting Services	5,521,821	6,775,694	6,626,933
Community Services	130,749	126,381	123,227
Other Transactions	1,000	12,000	11,356
Total Expenditures	<u>\$ 17,721,632</u>	<u>\$ 20,014,894</u>	<u>\$ 19,473,901</u>

The original revenue budget of \$17,444,734 was increased to \$19,369,740 as a result of increased revenue from local and state sources. The original expenditure budget of \$17,721,632 was increased to \$20,014,894. Basic instruction was increased due to additional costs for MPSERS retirement expense, staffing changes, and equipment purchases. Supporting Services increased for staffing changes and equipment, bus, and athletic purchases.

**K. Capital Asset and Debt Administration**

**1. Capital Assets**

By the end of the 2022-2023 fiscal year, the District had invested \$22,123,168 in a broad range of capital assets, including school buildings and facilities, school buses and other vehicles, and various types of equipment. Depreciation expense for the year amounted to \$764,921 bringing the accumulation to \$12,261,641 as of June 30, 2023.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2023

Major additions to capital assets included:

- School buses in the amount of \$310,730.
- Security camera project in the amount of \$188,333.
- Secure entrance system in the amount of \$13,346.
- Middle School cafeteria flooring in the amount of \$23,695.
- Middle School serving line in the amount of \$71,388.
- Bus garage project in the amount of \$122,711.
- Carpeting in the amount of \$17,025.
- Music room sound system in the amount of \$7,982.
- Pole vault pad in the amount of \$7,200.
- Stadium sound system in the amount of \$10,391.
- Rolling grill in the amount of \$15,070.
- Food service kitchen equipment in the amount of \$40,596.

As of June 30, 2023, the District had entered into purchase commitments. The District committed to purchasing the following:

- School buses in the amount of \$232,726.
- Food service kitchen equipment for a total amount of \$81,193, of which \$40,596 has been spent and the remaining \$40,597 is committed to be spent next year.
- New fencing at the preschool, athletic field, and playground in the amount of \$11,487.
- Three heating boilers in the amount of \$27,900.
- Two radiant tube heaters in the amount of \$11,755.
- Sealcoating of parking lot asphalt in the amount of \$17,290.

Additional information on the District's capital assets can be found in the notes to this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2023

**2. Long-Term Debt**

At June 30, 2023, the District had no bonded debt outstanding. The District had an outstanding net pension and net other postemployment benefits liability of \$31,910,906 and compensated absences of \$304,770 at year-end.

**L. Factors Bearing on the District's Future**

At the time that these financial statements were prepared and audited, the District was aware of the following items that could significantly affect its financial health in the future:

- The current budget is built with a retirement rate estimated at 44.23%. We are concerned about how the future retirement rates will be calculated along with changes in legislation regarding retirees returning to work.
- The per pupil Foundation Allowance continues to be a major source of revenue for the General Fund, therefore enrollment shifts could drastically effect funding.
- The District continues to develop plans to account for substantial revenue reductions once all of the American Recovery Plan ESSER Federal funding is exhausted.
- The support staff union contract will expire on June 30, 2024, and the teacher union contract will expire at the end of the 2024/25 school year.

**M. Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, please contact the Superintendent, Kingsley Area Schools, 402 Fenton Street, Kingsley, Michigan 49649.

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The basic financial statements of the Kingsley Area Schools have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

**A. Reporting Entity**

The School District ("the District") is located in Grand Traverse and Wexford Counties with its administrative offices located in Kingsley, Michigan. The District operates under an elected 7-member board of education and provides services to its 1,492 students in elementary, middle school, high school, special education instruction, transportation, food service and athletics. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. However, the District is not included in any other governmental reporting entity as defined by generally accepted accounting principles. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters.

**B. Description of Government-Wide Financial Statements**

The government-wide financial statements (i.e., the *Statement of Net Position* and the *Statement of Activities*) report the information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable. The District does not have any business-type activities or component units.

**C. Basis of Presentation – Government-Wide Financial Statements**

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from the governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

**D. Basis of Presentation – Fund Financial Statements**

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are

KINGSLEY AREA SCHOOLS  
KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental fund:

The *general fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

Additionally, the District reports the following fund type:

The *internal service fund* accounts for operations that provide services to other departments or agencies of the District.

Other non-major funds:

The *special revenue (School Service) funds* account for revenue sources that are legally restricted and committed to expenditures for specific purposes. The District accounts for its food service and school activities in a special revenue fund.

The *capital projects fund (public improvement fund)* is used to account for financial resources to be used for major improvement projects and is primarily funded from transfers in from the general fund.

Additionally, the District reports Fiduciary Funds. Fiduciary funds account for assets held by the District in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the District under the terms of a formal trust agreement. Fiduciary funds are not included in the government-wide statements

The *private purpose trust fund* is used to account for resources legally held in trust to provide scholarships to post-secondary education students. Contributions are held as permanent endowments and the earnings from those endowments can be used to provide the scholarships.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

**E. Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term obligations are reported as other financing sources.

Property taxes, state and federal aid and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue resource (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, except for the recognition of certain liabilities to the beneficiaries of a fiduciary activity. Liabilities to beneficiaries are recognized when an event has occurred that compels the District to disburse fiduciary resources.

**F. Budgetary Information**

**1. Budgetary Basis of Accounting**

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general and special revenue funds.

KINGSLEY AREA SCHOOLS  
KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

The District's approved budgets were adopted at the function level for the General and Special Revenue Funds. These are the legal enacted levels under the State Uniform Budgeting and Accounting Act and the level of budgetary control adopted by the Board (the level at which expenditures may not legally exceed appropriations).

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting - under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation - is utilized in the governmental funds. While all appropriations and encumbrances lapse at year-end, valid outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a) In June, the superintendent submits to the school board a proposed operating budget for the fiscal year commencing on July 1.
- b) A public hearing is conducted during June to obtain taxpayer comments.
- c) Prior to July 1, the budget is legally adopted by the School Board resolution pursuant to the Uniform Budgeting and Accounting Act. The Act requires that the budget be amended prior to the end of the fiscal year, when necessary, to adjust appropriations if it appears that revenues and other financial sources will be less than anticipated, or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated.
- d) The superintendent is charged with general supervision of the budgets and shall hold the department heads responsible for performance of their responsibilities.
- e) For purposes of meeting emergency needs of the District, transfer of appropriations may be made by the authorization of the superintendent. Such transfers of appropriations must be approved by the Board of Education at its next regularly scheduled meeting.
- f) During the year the budgets are monitored and amendments to the budget resolution are made when it is deemed necessary.
- g) Budgeted amounts are as originally adopted on June 27, 2022, or as amended by the School Board of Education throughout the year.

**G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

**1. Cash and Cash Equivalents**

The District’s cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

**2. Investments**

In accordance with Michigan Compiled Laws, the District is authorized to invest in the following investment vehicles:

- a) Bonds, securities, and other obligations of the United States or an agency or instrumentality of the United States.
- b) Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank which is a member of the Federal Deposit Insurance Corporation (FDIC) or a savings and loan association which is a member of the Federal Savings and Loan Insurance Corporation (FSLIC) or a credit union which is insured by the National Credit Union Administration (NCUA), but only if the bank, savings and loan association, or credit union is eligible to be a depository of surplus funds belonging to the State under section 5 or 6 of Act No. 105 of the Public Acts of 1855, as amended, being Section 21.145 and 21.146 of the Michigan Compiled Laws.
- c) Commercial paper rated at the time of purchase within the three (3) highest classifications established by not less than two (2) standard rating services and which matures not more than 270 days after the date of purchase.
- d) The United States government or federal agency obligations repurchase agreements.
- e) Bankers acceptances of United States banks.
- f) Mutual funds composed of investment vehicles, which are legal for direct investment by local units of government in Michigan.

Michigan Compiled Laws allow for collateralization of government deposits, if the assets for pledging are acceptable to the State Treasurer under Section 3 of 1855 PA 105, MCL 21.143, to secure deposits of State surplus funds, securities issued by the Federal Loan Mortgage Corporation, Federal National Mortgage Association, or Government National Mortgage Association.

KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

**3. *Inventory and Prepaid Items***

Inventory is valued at cost using the first in/first out method. Inventory consists of expendable supplies held for consumption, which are recorded as expenditures when consumed rather than when purchased.

Certain payments made to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

The nonspendable fund balance at the governmental fund level is equal to the amount of inventories at year-end to indicate the portion of the governmental fund balances that are nonspendable.

**4. *Capital Assets***

Capital assets purchased or acquired are capitalized at historical cost or estimated historical cost. Donated capital assets are valued at their estimated acquisition value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets. Land and construction in progress, if any, are not depreciated.

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives as follows:

Land Improvements	10 – 20 Years
Buildings and Additions	25 - 50 Years
Machinery and Other Equipment	5 – 20 Years
Transportation Equipment	5 – 10 Years

The District's capitalization policy is to capitalize individual amounts exceeding \$5,000.

**5. *Deferred Outflows/Inflows of Resources***

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in this category. They are pension and other postemployment benefits related items reported in the government-wide *Statement of Net Position*. A deferred outflow is recognized for pension and other postemployment benefit related items. These amounts are expenses in the plan year in which they apply. Details can be found in footnote 3.E and 3.F.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. The separate financial statement element, *deferred inflows of*

KINGSLEY AREA SCHOOLS  
KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

*resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two item that qualifies for reporting in this category. They are future resources yet to be recognized in relation to the pension and other postemployment benefit actuarial calculation. These future resources arise from differences in the estimates used by the actuary to calculate the pension and other postemployment benefit liability and the actual results. Details can be found in footnote 3.E and 3.F.

**6. *Defined Benefit Plans***

For purposes of measuring the net pension and other postemployment benefit liabilities, deferred outflows of resources and deferred inflows of resources related to pensions, and pension and other postemployment benefits, and pension and other postemployment benefits expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**7. *Unearned Revenue***

Unearned revenue arises when resources are received by the District before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, revenues is recognized. The District has unearned revenue in the Food Service Fund that is related to money received from students for meals in advance and in the General Fund that is related to unspent federal and state resources received.

**8. *Net Position Flow Assumption***

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

**9. *Fund Balance Flow Assumption***

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

KINGSLEY AREA SCHOOLS  
KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

**10. Fund Balance Policies**

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The governing board is the highest level of decision-making authority for the government that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

**11. Use of Estimates**

The process of preparing basic financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

**H. Revenues and Expenditures/Expenses**

**1. State Revenue**

The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The Foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to school districts based on information supplied by the districts. For the year ended June 30, 2023 the foundation allowance was based on pupil membership counts taken in October 2022 and February 2022. For fiscal year ended June 30, 2023, the per pupil foundation allowance was \$9,150 for Kingsley Area Schools.

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills and an allocated portion of state sales and other taxes. The local portion of the foundation

KINGSLEY AREA SCHOOLS  
KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

is funded primarily by non-homestead property taxes, which may be levied at a rate of up to 18 mills. The State revenue is recognized during the foundation period and is funded through payments from October 2022 to August 2023. Thus, the unpaid portion at June 30th is reported as due from other governmental units.

The District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain governmental funds require an accounting to the state of the expenditures incurred. For categorical funds meeting this requirement, funds received, which are not expended by the close of the fiscal year are recorded as unearned revenue. Other categorical funding is recognized when the appropriation is received.

**2. Program Revenues**

Amounts reported as program revenue include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, state foundation aid, certain revenue from the intermediate school district and other unrestricted items are not included as program revenue but instead as *general revenues*.

**3. Property Taxes**

Property taxes levied by the District are collected by various municipalities and periodically remitted to the District. The taxes are billed as of December 1. The due date is February 14, after which time the bills become delinquent and penalties and interest may be assessed by the collecting entity.

For the year ended June 30, 2023, the District levied the following amounts per \$1,000 of taxable valuation:

<u>Fund</u>	<u>Mills</u>
General Fund – Non-Principal Residence Exemption (PRE)	18.0000
General Fund – Commercial Personal Property	6.0000

**4. Compensated Absences**

It is the District’s policy to permit employees to accumulate earned but unused sick pay benefits. The amount allowable to be compensated for depends on the position and the longevity of the individual employee. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

**NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**A. Violations of Legal or Contractual Provisions**

**NOTE 3 – DETAILED NOTES ON ALL ACTIVITIES AND FUNDS**

**A. Deposits and Investments**

As of June 30, 2023 the District had deposits and investments subject to the following risks:

*Custodial Credit Risk – Deposits.* In the case of deposits, this is the risk that in the event of a bank failure, the government’s deposits may not be returned to it. As of June 30, 2023, the District’s bank balance was \$2,803,547 and \$2,303,247 of that amount was exposed to custodial credit risk because it was uninsured and uncollateralized. The carrying value on the books for deposits at the end of the fiscal year was \$2,408,114 along with petty cash of \$1,670.

The cash and cash equivalents and investments referred to above have been reported in either the cash and cash equivalents or investments captions on the financial statements, based upon criteria disclosed in Note 1.

The following summarizes the categorization of these amounts as of June 30, 2023:

	Primary Government	Fiduciary	Total
Cash	\$ 2,350,515	\$ 59,269	\$ 2,409,784
Investments	2,324,899	223,037	2,547,936
	\$ 4,675,414	\$ 282,306	\$ 4,957,720

*Interest Rate Risk* – In accordance with its investment policy, the District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investing pools and limiting the average maturity in accordance with the District’s cash requirements.

*Credit Risk* – State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSOs).

*Concentration of Credit Risk.* The District will minimize Concentration of Credit Risk, which is the risk of loss attributed to the magnitude of the District’s investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality.

	Fair Value	Standard & Poor's Rating
MILAF+ Cash Management Class	\$ 63	AAAm
MILAF+ MAX Class	2,547,873	AAAm
	\$ 2,547,936	

*Foreign Currency Risk.* The District is not authorized to invest in investments which have this type of risk; therefore, it is not addressed in the investment policy.

*Custodial Credit Risk –Investments.* For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities allowed by law; and pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which the District will do business.

**Fair Market Value Disclosure** - The District is required to disclose amounts within a framework established for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Quoted prices in active markets for identical securities.

Level 2: Prices determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices from similar activities, interest rates, prepayment speeds, credit risk, and others.

Level 3: Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable or deemed less relevant unobservable inputs may be used.

KINGSLEY AREA SCHOOLS  
KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

Unobservable inputs reflect the reporting entity’s own assumptions about the factors market participants would use in pricing the security and would be based on the best information available.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The District voluntarily invests certain excess funds in external pooled investment funds which included money market funds. One of the pooled investment funds utilized by the District is the Michigan Investment Liquid Asset Fund (MILAF). MILAF funds are considered external investment pools as defined by the GASB and as such are recorded at amortized cost which approximate fair value. The MILAF (MAX Class) fund requires notification of redemptions prior to 14 days to avoid penalties. These funds are not subject to the fair value disclosures.

**B. Receivables**

Receivables as of year-end for the government’s individual major funds and nonmajor are as follows:

	General Fund	Nonmajor Funds	Total

**D. Defined Benefit Plan and Postemployment Benefits**

**Plan Description** – The Michigan Public School Employees’ Retirement System (MPERS) (System) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the Board’s authority to promulgate or amend the provisions of the System. MPERS

issues a publicly available Annual Comprehensive Financial Report that can be obtained at [www://michigan.gov/orsschools](http://www://michigan.gov/orsschools).

The System's pension plan was established by the State to provide retirement, survivor, and disability benefits to public school employees. In addition, the System's health plan provides all retirees with the option of receiving health, prescription drug, dental and vision coverage under the Michigan Public School Employees' Retirement Act.

The System is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State of Michigan Investments Board serves as the investment officer and custodian of the System.

**Benefits Provided- Overall**

Participants are enrolled in one of multiple plans based on date of hire and certain voluntary elections. A summary of the plans offered by MPSERS is as follows:

<b><u>Plan Name</u></b>	<b><u>Plan Type</u></b>	<b><u>Plan Status</u></b>
Basic	Defined Benefit	Closed
Member Investment Plan (MIP)	Defined Benefit	Closed
Pension Plus	Hybrid	Closed
Pension Plus 2	Hybrid	Open
Defined Contribution	Defined Contribution	Open

**Benefits Provided – Pension**

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Retirement benefits for DB plan members are determined by final average compensation and years of service. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

Prior to Pension reform of 2010 there were two plans commonly referred to as Basic and the Member Investment Plan (MIP). Basic Plan member's contributions range from 0% - 4%. On January 1, 1987, the Member Investment Plan (MIP) was enacted. MIP members enrolled prior to January 1, 1990, contribute at a permanently fixed rate of 3.9% of gross wages. Members first hired January 1, 1990, or later including Pension Plus Plan members, contribute at various graduated permanently fixed contribution rates from 3.0% - 7.0%.

***Pension Reform 2010***

On May 19, 2010, the Governor signed Public Act 75 of 2010 into law. As a result, any member of the Michigan Public School Employees' Retirement System (MPSERS) who became a member of MPSERS after June 30, 2010 is a Pension Plus member. Pension Plus is a hybrid plan that contains a pension component with an employee contribution (graded, up to 6.4% of salary) and a flexible and

transferable defined contribution (DC) tax-deferred investment account that earns an employer match of 50% (up to 1% of salary) on employee contributions. Retirement benefits for Pension Plus members are determined by final average compensation and years of service. Disability and survivor benefits are available to Pension Plus members.

***Pension Reform 2012***

On September 4, 2012, the Governor signed Public Act 300 of 2012 into law. The legislation grants all active members who first became a member before July 1, 2010 and who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their pension. Any changes to a member's pension are effective as of the member's *transition date*, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under the reform, members voluntarily chose to increase, maintain, or stop their contributions to the pension fund.

An amount determined by the member's election of Option 1, 2, 3, or 4 described below:

**Option 1** - Members voluntarily elected to increase their contributions to the pension fund as noted below, and retain the 1.5% pension factor in their pension formula. The increased contribution would begin as of their transition date and continue until they terminate public school employment.

- Basic plan members: 4% contribution
- Member Investment Plan (MIP)-Fixed, MIP-Graded, and MIP-Plus members: a flat 7% contribution

**Option 2** - Members voluntarily elected to increase their contribution to the pension fund as stated in Option 1 and retain the 1.5% pension factor in their pension formula. The increased contribution would begin as of their transition date and continue until they reach 30 years of service. If and when they reach 30 years of service, their contribution rates will return to the previous level in place as of the day before their transition date (0% for Basic plan members, 3.9% for MIP-Fixed, up to 4.3% for MIP-Graded, or up to 6.4% for MIP-Plus). The pension formula for any service thereafter would include a 1.25% pension factor.

**Option 3** - Members voluntarily elected not to increase their contribution to the pension fund and maintain their current level of contribution to the pension fund. The pension formula for their years of service as of the day before their transition date will include a 1.5% pension factor. The pension formula for any service thereafter will include a 1.25% pension factor.

**Option 4** - Members voluntarily elected to no longer contribute to the pension fund and therefore are switched to the Defined Contribution plan for future service as of their transition date. As a DC participant they receive a 4% employer contribution to the tax-deferred 401(k) account and can choose to contribute up to the maximum amounts permitted by the IRS to a 457 account. They vest in employer contributions and related earnings in their 401(k) account based on the following schedule: 50% at 2 years, 75% at 3 years, and 100% at 4 years of service. They are 100% vested in any personal contributions and related earnings in their 457 account. Upon retirement, if they meet age and service

KINGSLEY AREA SCHOOLS  
KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

requirements (including their total years of service), they would also receive a pension (calculated based on years of service and final average compensation as of the day before their transition date and a 1.5% pension factor).

Members who did not make an election before the deadline defaulted to Option 3 as described above. Deferred or nonvested public school employees on September 3, 2012, who return to public school employment on or after September 4, 2012, will be considered as if they had elected Option 3 above. Returning members who made the retirement plan election will retain whichever option they chose.

Employees who first work on or after September 4, 2012 choose between two retirement plans: the Pension Plus Plan and a Defined Contribution that provides a 50% employer match up to 3% of salary on employee contributions.

Final Average Compensation (FAC) - Average of highest 60 consecutive months for Basic Plan members and Pension Plus members (36 months for MIP members). FAC is calculated as of the last day worked unless the member elected Option 4, in which case the FAC is calculated at the transition date.

***Pension Reform of 2017***

On July 13, 2017, the Governor signed Public Act 92 of 2017 into law. The legislation closed the Pension Plus plan to newly hired employees as of February 1, 2018 and created a new, optional Pension Plus 2 plan with similar plan benefit calculations but containing a 50/50 cost share between the employee and the employer, including the cost of future unfunded liabilities. The assumed rate of return on the Pension Plus 2 plan is 6%. Further, under certain adverse actuarial conditions, the Pension Plus 2 plan will close to new employees if the actuarial funded ratio falls below 85% for two consecutive years. The law included other provisions to the retirement eligibility age, plan assumptions, and unfunded liability payment methods.

**Benefits Provided – Other postemployment benefit (OPEB)**

Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree health care recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP-Graded plan members), the subsidy is the maximum allowed by statute. To limit future liabilities of Other Postemployment Benefits, members who first worked on or after July 1, 2008, (MIP-Plus plan members), have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurances as of that date.

KINGSLEY AREA SCHOOLS  
KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

***Retiree Healthcare Reform of 2012***

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees Retirement System, who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's *transition date*, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions will be deposited into their 401(k) accounts.

***Regular Retirement (no reduction factor for age)***

Eligibility - A Basic plan member may retire at age 55 with 30 years credited service; or age 60 with 10 years credited service. For Member Investment Plan (MIP) members, age 46 with 30 years credited service; or age 60 with 10 years credited service; or age 60 with 5 years of credited service provided member worked through 60<sup>th</sup> birthday and has credited service in each of the last 5 years. For Pension Plus Plan (PPP) members, age 60 with 10 years of credited service.

Annual Amount - The annual pension is paid monthly for the lifetime of a retiree. The calculation of a member's pension is determined by their pension election under PA 300 of 2012.

**Member Contributions**

Depending on the plan selected, member contributions range from 0% to 7% for pension and 0% to 3% for other postemployment benefits. Plan members electing the defined contribution plan are not required to make additional contributions.

**Employer Contributions**

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of pension benefits and OPEB. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the

KINGSLEY AREA SCHOOLS  
KINGSLEY, MICHIGAN

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

individual between entry age and assumed exit age. The normal cost is the annual cost assigned under the actuarial funding method, to the current and subsequent plan years. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis.

Pension and OPEB contributions made in the fiscal year ending September 30, 2022 were determined as of the September 30, 2019 actuarial valuations. The pension and OPEB benefits, the unfunded (overfunded) actuarial accrued liabilities as of September 30, 2019 are amortized over an 17-year period beginning October 1, 2021 and ending September 30, 2038.

School districts' contributions are determined based on employee elections. There are several different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS. The range of rates is as follows:

	<u>Pension</u>	<u>Other Postemployment Benefit</u>
October 1, 2021 - September 30, 2022	13.73% - 20.14%	7.23% - 8.09%
October 1, 2022 - September 30, 2023	13.75% - 20.16%	7.21% - 8.07%

The District's pension contributions for the year ended June 30, 2023 were equal to the required contribution total. Total pension contributions were approximately \$3,651,800. Of the total pension contributions, approximately \$3,571,000 was contributed to fund the Defined Benefit Plan and approximately \$80,800 was contributed to fund the Defined Contribution Fund.

The District's OPEB contributions for the year ended June 30, 2023 were equal to the required contribution total. Total OPEB contributions were approximately \$616,100. Of the total OPEB contributions, approximately \$563,000 was contributed to fund the Defined Benefit Plan and approximately \$53,100 was contributed fund to the Defined Contribution Fund.

These amounts for both pension and OPEB, include contributions funded from State Revenue Section 147c restricted to fund MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate (100% for pension and 0% for OPEB).

**E. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

**Pension Liabilities**

At June 30, 2023, the District reported a liability of \$30,250,088 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation date of September 30, 2021 and rolled-forward using generally accepted actuarial procedures. The District's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2022 and 2021, the District's proportion was 0.08043371% and 0.07999515%.

**F. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

**OPEB Liabilities**

At June 30, 2023, the District reported a liability of \$1,660,818 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of September 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation date of September 30, 2021 and rolled-forward using generally accepted actuarial procedures. The District's proportion of the net OPEB liability was based on a projection of its long-term share of contributions to the OPEB plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2022 and 2021, the District's proportion was 0.07841212% and 0.08105765%.

**Salary increases** - The rate of pay increase used for individual members is 2.75% - 11.55%, including inflation at 2.75%.

**Inflation** – 3.0%

**Mortality assumptions** –

Retirees: RP-2014 Male and Female Healthy Annuitant Mortality Tables scaled by 82% for males and 78% for females and adjusted for mortality improvements using projection scale MP-2017 from 2006.

Active: RP-2014 Male and Female Employee Annuitant Mortality Tables scaled 100% and adjusted for mortality improvements using projection scale MP-2017 from 2006.

Disabled Retirees: RP-2014 Male and Female Disabled Annuitant Mortality Tables scaled 100% and adjusted for mortality improvements using projection scale MP-2017 from 2006.

**Experience study** - The annual actuarial valuation report of the System used for these statements is dated September 30, 2021. Assumption changes as a result of an experience study for the periods 2012 through 2017 have been adopted by the System for use in the determination of the total pension and OPEB liability beginning with the September 30, 2018 valuation.

**The long-term expected rate of return on pension and other postemployment benefit plan investments** - The pension rate was 6.00% (MIP, Basic, Pension Plus Plan, and Pension Plus 2 Plan) and the other postemployment benefit rate was 6.00%, net of investment and administrative expenses was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension and OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**Cost of Living Pension Adjustments** – 3.0% annual non-compounded for MIP members.

**Healthcare cost trend rate for other postemployment benefit** – Pre 65, 7.75% for year one and graded to 3.5% in year fifteen. Post 65, 5.25% for year one and graded to 3.5% in year fifteen.

**Additional assumptions for other postemployment benefit only** – Applies to individuals hired before September 4, 2012:

**Opt Out Assumption** – 21% of eligible participants hired before July 1, 2008 and 30% of those hired after June 30, 2008 are assumed to opt out of the retiree health plan.

**Survivor Coverage** – 80% of male retirees and 67% of female retirees are assumed to have coverage continuing after the retiree's death.

**Coverage Election at Retirement** – 75% of male and 60% of female future retirees are assumed to elect coverage for 1 or more dependents.

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

The target asset allocation at September 30, 2022 and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Investment Category</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return *</u>
Domestic Equity Pools	25.00%	5.10%
Private Equity Pools	16.00%	8.70%
International Equity Pools	15.00%	6.70%
Fixed Income Pools	13.00%	-0.20%
Real Estate & Infrastructure Pools	10.00%	5.30%
Absolute Return Pools	9.00%	2.70%
Real Return/Oppportunistic Pools	10.00%	5.80%
Short-Term Investment Pools	2.00%	-0.50%
	<u>100%</u>	

\*Long-term rate of return are net of administrative expenses and 2.2% inflation.

***Rate of return***

For fiscal year ended September 30, 2022, the annual money-weighted rate of return on pension and OPEB plan investments, net of pension and OPEB plan investment expense, was (4.18)% and (4.99)% respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

***Pension Discount Rate***

A single discount rate of 6.00% was used to measure the total pension liability. This discount rate was based on the expected rate of return on pension plan investments of 6.00%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions from school districts will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

***OPEB Discount Rate***

A single discount rate of 6.00% was used to measure the total OPEB liability. This discount rate was based on the long-term expected rate of return on OPEB plan investments of 6.00%. The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that school districts contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023

**I. Payables to the Pension and OPEB Plan**

As of June 30, 2023, the District is current on all required pension and OPEB plan payments. As of June 30, 2023, the District reported payables in the amount of \$726,645 to the pension and OPEB plans. These amounts represent current payments for June wages paid in July, accruals for summer pay primarily for teachers and also the contributions due funded from state revenue Section 147c restricted to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL).

**J. Risk Management**

The District is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries (workers' compensation) as well as medical benefits provided to employees.

The District participates in a distinct pool of educational institutions within the State of Michigan for various risks of loss, including general liability, property and casualty, employee health and accident insurance, and workers' disability compensation. The pool is considered a public entity risk pool. The District pays annual premiums to each pool for the respective insurance coverage. In the event a pool's total claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to special assessment to make up the deficiency. The District has not been informed of any special assessments being required.

The District adopted a self-insurance program effective July 1, 2019 for medical benefits for employees. An Internal Service Fund has been established to pay medical benefit claims of the District. The District contributes to the self-insurance program based on the amount of insurance premium that would have had to be paid to an insurance carrier for insurance coverage.

Estimates for the liability for unpaid claims are based on actual claims in process as of year-end and claims made in the two months following year-end.

A reconciliation of the liability for unpaid claims follows:

Liability, beginning of year	\$ (65,299)
Claims incurred	1,381,409
Payments on claims	<u>(1,462,119)</u>
Liability, end of year	<u>\$ (146,009)</u>

**K. GASB Statement No. 87 – Leases**

Reductions	(128,279)	(2,737,631)	(597,291)	(3,463,201)
Balance - June 30, 2023	304,770	30,250,088	1,660,818	32,215,676
Less Current Portion	Unknown	Unknown	Unknown	Unknown
Total Due After One Year	\$ 304,770	\$ 30,250,088	\$ 1,660,818	\$ 32,215,676

Accumulated Compensated Absences	\$ 304,770
Net Pension Liability	30,250,088
Net OPEB Liability	1,660,818
Total Long-Term Debt	<u>\$ 32,215,676</u>

The annual requirements to amortize the compensated absences and net pension and OPEB liabilities are uncertain because it is unknown when the repayments will be made.

Compensated absences and net pension and OPEB liabilities will be paid by the fund in which the employee worked, including the general fund and other governmental funds.

**N. Interfund Receivables and Payables**

Receivable Fund	Payable Fund	Amount
General Fund	Food Service Fund	\$ 22,276

General Fund	School Activity Fund	16,564
Internal Service Fund	General Fund	400,114
Food Service	School Activity Fund	2,314
		<u>\$ 465,948</u>

The outstanding balances between funds result mainly from the time lag between the dates that (1) Interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All Interfund balances outstanding at June 30, 2023 are expected to be repaid within one year.

**O. Interfund Transfers**

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. There were no interfund transfers during the fiscal year.

**P. Other Information**

**1. Contingencies**

Under the terms of various federal and state grants and regulatory requirements, periodic audits are required, and certain cost may be questioned as not being appropriate expenditures under the terms of the grants and requirements. Such audits could lead to reimbursement of the grantor or regulatory agencies. However, management does not believe such disallowances, if any, would be material to the financial position of the District.

**2. Commitments**

As of June 30, 2023, the District had entered into purchase commitments. The District committed to purchasing the following:

- Purchase of buses in the amount of \$232,726.
- Purchase of food service kitchen equipment for a total amount of \$81,193, of which \$40,596 has been spent and the remaining \$40,597 is committed to be spent next year.
- Purchase and install of new fencing at preschool, athletic field, and playground for \$11,487.
- Purchase and install of three heating boilers for \$27,900.
- Purchase and install of two radiant tube heaters for \$11,755.
- Sealcoating of parking lot asphalt for \$17,290.

**3. Single Audit**

Current federal guidelines require entities with federal expenditures exceeding \$750,000 to have a “single audit” of federally funded programs. This audit is being performed and the reports based thereon will be issued under a separate cover.

**Q. GASB Statement No. 77 (Tax Abatements)**

It has been determined that the District has granted tax abatements as defined by GASB Statement No. 77. However, the total of these abatements is less than \$6,500, and it has been determined they are not significant enough to warrant disclosure.

**R. Upcoming Accounting Pronouncements**

In June 2022, the GASB issued Statement No. 100, *Accounting Changes and Error Corrections - an amendment of GASB Statement No. 62*. This Statement prescribes the accounting and financial reporting for (1) each type of accounting change and (2) error corrections. This Statement requires that (a) changes in accounting principles and error corrections be reported retroactively by restating prior periods, (b) changes to or within the financial reporting entity be reported by adjusting beginning balances of the current period, and (c) changes in accounting estimates be reported prospectively by recognizing the change in the current period. The District is currently evaluating the impact this standard will have on the financial statements when adopted during the 2023-2024 fiscal year.

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. This Statement also establishes guidance for measuring a liability for leave that has not been used, generally using an employee's pay rate as of the date of the financial statements. The District is currently evaluating the impact this standard will have on the financial statements when adopted during the 2024-2025 fiscal year.
